

FIVE CREATIVE INITIATIVES - AN IMPORTANT OPPORTUNITY FOR YOUTH

Sattarov Xayrullo Razzaqovich

Senior Lecturer of the Department of Languages of the Tashkent Institute of Textile and Light Industry

Annotation. The article discusses 5 important principles at the initiative of the President of the Republic of Uzbekistan Shavkat Mirziyoyev on the effective organization of youth leisure and its role in the education of modern youth. The effective organization of students' leisure and the opportunities created for young people in the Republic of Uzbekistan are of great importance.

Keywords: Five initiatives, youth, harmoniously developed generation, society, development, new Uzbekistan, reforms.

Today Uzbekistan is entering a new stage of development. In our country, a system has been formed that allows citizens to show their talents and realize their dreams. At the heart of the idea put forward by the President of the Republic of Uzbekistan Shavkat Mirziyoyev "From national revival to national elevation" is to reflect the goals of modern development. The idea of national growth is based on the Action Strategy for the Development of Uzbekistan.

Rise means all-round growth. Consequently, this idea should indicate the goals that serve the development of our society today, and, in turn, the processes that impede such development. Most importantly, it reflects the level of satisfaction of our people with their lives - the level of implementation of our national idea.

The fate and future of any state depends on the younger generation, its physical and spiritual maturity. Because a physically strong, faithful, educated, highly spiritual, patriotic, harmoniously developed generation is the basis for the development of society. Therefore, in our country, the necessary conditions have been created for young people to demonstrate their potential, and a lot of positive work is being done.

Today in our country it is important to develop a civil society, bring up a healthy and harmoniously developed generation, promote a healthy lifestyle among minors and young people, radically change and improve the worldview and mood of our youth, especially their career growth.

Along with the modern upbringing of the younger generation, their upbringing in the spirit of universal and national values, high human qualities, reliable protection of their mind and heart from ideological and spiritual threats, the formation of their active civic position is constant. focus of our state.

30% of the population of our country are boys and girls aged 14 to 30 years. For them, extensive conditions have been created for obtaining education and acquiring a profession. At the same time, the organization of meaningful leisure time for young people is an urgent problem. The more mature the youth is spiritually, the stronger their immunity against various alien vices will be.

Under the leadership of the President of the Republic of Uzbekistan Sh.M. Mirziyoyev.

On March 19, 2019, at the videoconference "On the implementation of 5 important initiatives to increase interest in culture, art, sports, information technology, reading in the effective organization of work with youth", the following 5 important initiatives were put forward:

The first initiative serves to increase the interest of young people in music, painting, literature, theater and other types of art, to reveal their talents.

The second initiative is aimed at creating the necessary conditions for the physical training of young people, demonstrating their abilities in sports.

The third initiative is aimed at organizing the effective use of computer technologies and the Internet among the population and youth.

The fourth initiative is aimed at raising the morale of young people, organizing systematic work to disseminate reading among them.

The fifth initiative concerns the employment of women.

The task of our state is to educate the younger generation healthy, to educate them as spiritually rich, developed individuals and to take care of them. These strategic issues are reflected in all government programs. Educating young people in adolescence is one of the most difficult issues.

Today Uzbekistan is making a bold step into a new stage of its development. On the basis of the modernization of our country, ensuring human rights and freedoms, the rule of law, a new, democratic image of Uzbekistan is being created. In his speech at the solemn ceremony dedicated to the 28th anniversary of the independence of the Republic of Uzbekistan, the President of the Republic of Uzbekistan Shavkat Mirziyoyev emphasized that the noble idea "From national revival to national elevation" is the priority slogan of today. development.

By national progress, we mean the development of our country, raising the standard of living and the quality of life of our people to a higher level in all respects. A unique system of social development is being formed in our country. In this regard, programs such as "Prosperous Village", "Prosperous Neighborhood", "Youth is Our Future", "Five Positive Initiatives" play an important role in mobilizing the population for innovation and work.

At the heart of 5 important initiatives put forward by the President of the Republic of Uzbekistan Sh.M. Mirziyoyev to raise the morale of young people, the meaningful organization of their leisure, are great noble ideas and goals.

After all, the first initiative to increase the interest of young people in music, painting, literature, theater and art embodies the desire to educate people with high taste. The initiative envisages attracting 2 million young people aged 14 to 30 years old in the field of culture and art in 2019-2020. Also, additional classes will be organized in children's music and art schools, instrumental, singing, art circles, amateur theatrical groups and children's ensembles in houses of culture.

The second initiative - the interest of young people in physical culture, physical culture, sports - is the formation of a comprehensively healthy generation. Because only tall, physically strong and healthy, mentally active, sane boys and girls can claim to be perfect.

The third initiative, aimed at creating conditions for the effective use of computers and the Internet by young people, will allow future owners to keep up with the times in the current era of information technology. Raising the morale of young people and widespread promotion of reading among them is the basis of the fourth initiative. After all, our youth, who have high taste, are physically healthy, well versed in modern information technologies, should receive education and enlightenment. The source of knowledge and reflection is a book. Without it, it is impossible to achieve perfection, enlightenment, spirituality.

The significance of the Fifth Women's Employment Initiative is also endless. Its essence is the noble goal of women to find their place and status in society.

Five initiatives are the most acceptable paradigm for the formation of a new generation of renewed Uzbekistan. This is a solid foundation on which our physically and mentally healthy children confidently build their future and grow up as mature people capable of

contributing to the development of the Motherland, with a fine taste, broad thinking and worldview.

Since time immemorial, the peoples of the East have observed the rules of respect for elders, respect for younger ones, honesty, kindness and hospitality. He becomes a spiritually mature person only if these moral principles are fully manifested in every person. This means that he fulfilled his human duty to society, to people. Duty is an important moral and spiritual value, meaning that each person fulfills his duty to society, children, people, nation, humanity.

Duty - includes human responsibilities that must be fulfilled and ethical rules that can be followed in a humane manner. The duty of the parents to the child, the duty to society, the duty of the child to the parents, the duty to preserve the heritage of mankind and pass it on to future generations, the duty to the nation, the duty to the parents. the next generation, the duty to protect nature, the duty to the Motherland.

According to scientists, "parents have eighty rights over their children. Forty of them are performed during life, and the remaining forty - after death. Of the forty truths of life, ten belong to the coin, ten to the language, ten to the heart and ten to property "[2, p. 30].

Such qualities as hard work, kindness, brotherhood, humanity, courage, honesty, faith, which are the spiritual heritage of our people, Abu Raikhan Beruni, Najmiddin Kubro, Mahmud al-Zamakhshari, Abu Ali ibn Sino, Alisher Navoi, Ahmad al-Fargani Imam The duty of each of us to society, to humanity, to future generations is to preserve the spiritual heritage of al-Bukhari, Imam al-Termizi, Bahauddin Naqshband and other similar thinkers, to pass on to the next generation the national spiritual heritage, which has grown in value over the centuries.

The Motherland is a blessed place where everyone was born and raised, a quarter, a village, a city, a Motherland. This is the land he lives on. The duty of every citizen living in Uzbekistan is to defend this Motherland, honestly work for the good of the Motherland, and if necessary, give his life for the defense of the Motherland.

The greatest wealth of a person is the Motherland. To love the Motherland means to love the national language of the Motherland, to love state symbols, to respect national values and traditions, to strive for peace and tranquility.

After all, loving the Motherland is a matter of faith. In other words, only a loyal, conscientious person, who fully understands the concept of the Motherland, devotes all his energy to the Motherland, who works for the knowledge of the Motherland and is proud of his Motherland, will fulfill his duty to the Motherland.

The main duties of citizens of the Republic of Uzbekistan to the Motherland are defined by Articles 48, 49, 50, 51, 52 of the Constitution of the Republic of Uzbekistan. That is, they "citizens are obliged to comply with the Constitution and the Law, respect the rights, freedoms, honor and dignity of other people." Citizens are obliged to preserve the historical, spiritual and cultural heritage of the people of Uzbekistan. The protection of the Republic of Uzbekistan is the duty of every citizen of the Republic of Uzbekistan, citizens are obliged to carry out military or alternative service in the manner prescribed by law "[1, p. 18-19].

In conclusion, I would like to say that the future of our country is in the hands of young people, and the result can be achieved.
