**Abstract:** This article provides ideas on how to license small businesses and entrepreneurship.

**Keywords:** small business, entrepreneurship, risk, capital, economic well-being

Certain types of business activities are allowed only after obtaining a license from the state authorities.

Licensing authorities are listed in the table.

The license is issued on the basis of the attached application of the person interested in managing the enterprise with a copy of the constituent documents. A decision to grant a license will be made within 30 days of the submission of the required documents and application.

If expertise is required in making the necessary decision to issue a license, this expertise shall be carried out by the state bodies whose task is control. A decision will be made no later than 60 days after the application and the required documents are submitted within 15 days after the conclusion of the examination. In this case, the applicant shall pay the costs of the examination.
