

ORGANIZATION OF ENTREPRENEURSHIP EDUCATION IN PROFESSIONAL EDUCATIONAL INSTITUTIONS

O A Bakoyev - Vobkent district number 2

Director of a vocational school.

Phone number + 99890-080-70-30, 55-302-01-62

Today, a large-scale work is being carried out to attract the population to entrepreneurship, in particular, to provide comprehensive assistance to young people and women in the implementation of business ideas. This is the main factor and source in the development of small business and entrepreneurship in the employment of young people and women, their economic independence and finding their place in life.

As noted by President Mirziyoyev in a number of speeches, "Another important task is to support and encourage small business and entrepreneurship, to strengthen the economic power of our country, peace and stability, social harmony in our country. strengthening, creating favorable conditions for further increasing the share of this sector. After all, an entrepreneur feeds not only himself and his family, but also the people and the state. I will never get tired of saying, "If the people are rich, the state will be rich and powerful."

Today, small business and private entrepreneurship not only play a key role in GDP, but also become an important factor in increasing the welfare and income of the population, solving the problem of unemployment, especially in small towns and rural areas. we have to do.

Unskilled and inexperienced young people looking for work for the first time, especially women, who have a high level of education and work experience, find work in small, medium and private businesses.

Early awakening of entrepreneurial ability in young people through the introduction of entrepreneurial activity in educational institutions of the vocational education system, vocational training of young people, employment of unemployed youth, especially women, and poverty reduction.

In order to solve the above-mentioned problems, to train young people in the profession in the vocational school No. 2 of Vobkent district in 2020 at the expense of the state budget and special account of the vocational school for 90 students 234 A light-duty training workshop building was built for 1 million soums.

The workshop is equipped with equipment for electric welding, carpentry, lathe workshops, and students have the opportunity to earn money in the field of welding, carpentry and lathe after school.

Resolution of the President of the Republic of Uzbekistan dated April 20, 2021 "On additional measures to support entrepreneurship and employment of young people, their social protection and meaningful organization of leisure time" In order to ensure the implementation of the Decree No. PF-6208 on the wide involvement of students in entrepreneurial activities in vocational schools, early formation of entrepreneurial skills in them, production and services in 16 areas in order to earn income for vocational schools

demonstration activities are organized. These are sewing, beekeeping, welding, carpentry, lathe, bread, national confectionery, mushroom growing, sports services, women's hairdressing, car wash, oil change, computer services.

In cooperation with the Republican Association of Beekeepers, a "Simulation Center" in the field of beekeeping was established at the vocational school. In addition, a beekeeping farm has been established at the expense of a special account of the vocational school, where 40 bee families are cared for so that students can acquire practical skills in the profession of beekeeping.

In the vocational school of the President of the Republic of Uzbekistan 2020 In accordance with the Decree No. PF-6108 "On measures to develop education and science in the new period of development of Uzbekistan" dated November 6, a dual education system was introduced. Shabnam Tex "LLC, Vobkent district avtotexhizmat LLC, Equatorial Chodak LLC, Vobkent fiber cluster LLC," Diagnostika avtogaz servis "LLC," Agroservis MTP "LLC, Vobkent district IFC No. 201 on the basis of practice-oriented educational programs cooperation has been established.

An example of this is the cooperation with Kamalak Shabnam Tex LLC. In order to introduce practice-oriented educational programs with this limited liability company, the Dual Education System was introduced on the basis of a bilateral agreement. After school, students sew disposable bags from natural fabrics in the sewing workshop on the order of "Kamalak Shabnam Tex" LLC. Students earn from 35-40 thousand soums a day, on average 800 thousand soums to 1 million soums per month.

Vocational school students rank 1st among students of regional vocational schools in terms of earning income through the dual education system. The sewing products produced by the students of the vocational school are exported to Germany and the Netherlands.

At the expense of the special account of the vocational school, an innovative auditorium, "Innovative Information Resource Center", a gymnasium for weightlifting were organized in the gym to provide students with modern knowledge, spiritual and has been serving in physically healthy growth.

One of the most pressing issues today is the reduction of unemployment, the employment of unemployed youth, especially women, and the reduction of poverty. The "Local Development Center" of the Bukhara Regional Association of Women Entrepreneurs was established at the vocational school. Unemployed and iron-clad young men and women are being trained at the center. In addition, the Decree of the President of the Republic of Uzbekistan dated January 25, 2021 "On additional measures to organize the training of persons leaving for a foreign country for temporary employment and the unemployed" In order to ensure the implementation of the Resolution No. 4962, 468 unemployed people, including the "Youth Book",

In order to develop the provision of paid educational services to the population, to earn income on special accounts, the Cabinet of Ministers of the Republic of Uzbekistan on May 31, 2018 "On training, retraining and advanced training of drivers of vehicles and urban electric vehicles" According to the Resolution No. 408 "On measures to further improve the licensing of educational services", the training of drivers in vocational schools is underway.

In the future, the vocational school plans to establish a Simulation Center for the cultivation of agricultural products, modern types of greenhouses (hydroponics, aeronautics) in order to teach students the business of gardening.

In addition, the vocational school plans to implement a number of projects in the future, for example, large-scale projects for the development of animal husbandry, rabbit breeding and fisheries.
